

**Product Name:**HX1838 Receiver Code Infrared Remote Control Module IR Controller Kit

**Product Module:** OKY1001-1

### Quick Details:

Operate Voltage	5V
Output form	Digital output
VCC	3.3V-5V external voltage (can be directly connected to the 5v microcontroller and 3.3v microcontroller)
GND	External GND
Effective angle	60°
Effective life	20000times
Static current	3uA - 5uA
Dynamic current	3mA - 5mA
Battery capacity	160mAh
Battery	CR2025 Button batteries (not Included)
Sticking Material	0.125mmPET
Remote contoller size	8.5 x 4 x 0.65cm(L x W x H)
Weight	17g for the kit

### Product Description:

Kit theory test distance of about 5-8 meters, but the practical application depends on the ambient factors you use, as well as the middle barrier, receiving head with HX1838, with red power work instructions lights, receive 38K frequency any remote coding data.

The remote controller has 3x7 keys, include 0-9, 100+, 200+ numerical key, CH+, CH, CH-, PREV, NEXT, PLAY/PAUSE, VOL-, VOL+, EQ.

### Package Included

- 1x Mini Slim 38KHz infrared remote control
- 1x receiving head HX1838
- 1x Receiving Head
