

OKY2000

Product Name: Mini USB Robotics ATmega328 ATmega328P Development Board CH340G UNO R3 for Arduino

Product Module: OKY2000

Quick Details:

Controller	ATmega328P-AU
USB to serial chip	CH340G
Weight	27g
Input Voltage	7-12V
Digital IO pins	14 (of which 6 provide PWM output)
Analog input pins	6
DC Current per I/O Pin	40 mA
USB Port	Mini USB Port
Clock Speed	16 MHz
Operating voltage	5V
Input Voltage (limits)	6-20V

Specifications:

CH340G Serial converter

MEGA328P Microcontroller

UNO R3

9V power jack

Convenient Micro USB port (instead of usual USB type B)

13 Digital I/O pins with 6 pins having PWM capability

6 analog input pins

High quality PCB

Package Includes:

1 x UNO R3 MEGA328P CH340G board
