

OKY2009-1

Product Name: New Pro Mini Atmega328 5V 16M Replace
ATmega128 Compatible Nano Board For Arduino

Product Module: OKY2009-1

Product Description:

1. For Arduino-compatible Board. New.
2. ATmega328 running at 16MHz with external resonator (0.5% tolerance).
3. USB connection off board.
4. Supports auto-reset.
5. Max 150mA output.
6. Over current protected.
7. Reverse polarity protected.
8. DC input 5V up to 12V.
9. On board Power and Status LEDs.
10. Size: (Long) 33mm * (wide1) 18 mm * (high) 6mm.

Package Included

Packing List	Qty
pro min atmega328p board for Arduino	1
Gilded Pin	3
