

OKY2103-1

Product Name: UNO Prototype PCB Prototyping Shield ProtoShield
Mini Breadboard UNO R3 for Arduino

Product Module: OKY2103-1

Product Description:

- 1.Small soldering area.
- 2.All Arduino pins are brought to the top level.
- 3.1 reset button, 1 general use button, and 2 LED circuits can be used directly.
- 4.5V, GND, and Raw pins are exposed as well.
- 5.SOIC place for IC.
- 6.The mini breadboard has 170 tie points.
- 7.The breadboard sticks on the prototype shield with its self-adhesive backing.
- 8.Prototype Size:7cm x 5.5cm x 2cm.
- 9.Mini breadboard size: 4.4 * 3.4 * 1cm.

Package Included

Packing List	Qty
Arduino prototype shield	1
Mini breadboard	1
