

## OKY3056

**Product Name:** Flame Sensor IR Sensor Module Detector  
Temperature Detecting Module

**Product Module:** OKY3056

### Product Description:

- 1.High sensitivity IR receiver.
- 2.Extremely sensitive to wave between 760-1100nm.
- 3.Power supply indicator lamp.
- 4.Comparator output indicator lamp.
- 5.AO, real-time thermister voltage signal output.
- 6.DO, high / low electric level signal output.
- 7.Analog quantity output.
- 8.Threshold rollover electric level output.
- 9.Threshold adjusted by potentiometer.
- 10.Detection Angle Range: About 60 degrees.
- 11.Power Supply: 0-15 V DC.
- 12.Hole Inner Diameter: Approx. 3mm.
- 13.Size (L x W): Approx. 36 x 16mm.

### Package Included
