

OKY3107

Product Name: 2 Channel LDR Sensor Photosensitive Resistance Sensor Module With Wire

Product Module: OKY3107

Product Description:

1. Using photosensitive resistance sensor.
2. The comparator output, signal clean, good waveform, driving ability is strong, for more than 15 ma.
3. With a potentiometer sensitivity adjustment.
4. The working voltage of 3.3 V to 5 V.
5. The output form: digital switch output (0 and 1).
6. Has a fixed bolt hole, convenient installation.
7. Small board PCB size: 3.2 cm x 1.7 cm.

Package Included

Packing List	Qty
2 Channel LDR Sensor Photosensitive Resistance Sensor Module	1
Wire	1
