OKY3135

Product Name: Smart Electronics KY-038 4pin Mini Voice Sound Sensor Module Microphone Sound module

Product Module： OKY3135

Quick Details:

Working voltage	DC 4-6V
Comparator Circuit	LM393
Power On LED light	LED1
Power supply voltage	3V-24V
Hole Inner Diameter	Approx. 3mm
Material	PCB
Color	red
Board Weight	5g
Size	35mm x 1Color5mm x 14mm

Description:

This is microphone voice sound sensor module
Model: KY-038
Adopt LM393 main chip
Electric condenser microphone
Features Single channel signal output
Low level output signal used for sound control light
Great module for sound alarm system
Working voltage: DC 4-6V

Interface Definition:

AO: analog output sensor
GND: ground
VCC: Power supply input range: 3V-24V.
DO: Digital Output (comparator output)
Two red LED indication: POWER and SENSOR. POWER: Power is off. SENSOR: When the microphone senses sound reaches a certain value, this LED light.

Package Included:

1pcs Smart Electronics KY-038 4pin Mini Voice Sound Sensor Module Microphone Sound module
