

## OKY3195-1

**Product Name:**Dual H Bridge DC Stepper Motor Driver Control  
Controller L298N Board Module

**Product Module:** OKY3195-1

### Product Description:

- 1.Driver: L298N Dual H Bridge DC Motor Driver IC.
- 2.Drive Terminal Power Supply: +5 V ~ +35 V; (if others need to be powered by the board, power supply should be +7V~+35V).
- 3.Drive Part of the Peak Current: 2A.
- 4.Logic Terminal Power Supply: +5 V ~ +7 V (Power supply within the board: +5 V).
- 5.Logic Part of the Operating Current: 0 ~ 36mA.
- 6.Control Signal Input Voltage Range: Low:-0.3V; High: 2.3V.
- 7.Enable Signal Input Voltage Range: Low: -0.3; High: 2.3V.
- 8.Storage Temperature: -25 ~ +130 deg C.
- 9.Other Extensions: Control indicators, logic unit power supply interface.
- 10.Size(L x W x H): 55 x 60 x 30mm.

### Package Included

Packing List	Qty
Dual H Bridge DC Stepper Motor Driver Module	1
