

OKY3210

Product Name:4xSMD 5050 Led Module Light LED Light Module AC Led Module for arduino

Product Module: OKY3210

Features:

Brand new and high quality SPI RGB 4 SMD 5050 LED Light Module for Arduino

4 RGB SMD 5050 LED light

RGB LED light module uses PCB material

Great for experiment of single-chip microcomputer

Specifications:

Exterior dimensions: 4.8 x 3.8 x 0.5 cm

Color: White

Material: PCB

Voltage: 5V

Driving mode: Ardu SPI

Control Chip: 74HC595

Color: RGB

LED Type: SMD 5050

Wave length: Red: 660nm, Green: 532nm, Blue: 490nm

Package Contents:

1 x LED Light Module
