Product Name:ESP8266 Remote Serial Port WIFI Transceiver Wireless Module ESP-07 ESP8266 Wifi Module

Product Module：OKY3367

Quick Details:

Model	ESP8266
ISM	2.4GHz
PA	+25dBm
Wireless standards	802.11b/g/n
weight	2g

Description:

1.The ESP - 07: half hole SMT process,

all IO lead, with metal shielding case, can the FCC CE certification, can be an external IPX antenna, also can use the built-in ceramic antenna. (without antenna)

2. powerful internal run LWIP protocol.

3 support three patterns: AP, STA and AP + STA coexistence pattern.

4 perfect concise and efficient the AT command, let you develop more simple.

Package Included:

1pcs ESP8266 Remote Serial Port WIFI Transceiver Wireless Module ESP-07 ESP8266 Wifi Module
