

OKY3421

Product Name:TTP224 4- Channel Capacitive Touch Digital Touch Sensor Module Switch Button

Product Module: OKY3421

Features:

100% brand new and high quality

on board TTP224 capacitive touch sensor IC 4 keys

4 board-level status indicator

Working voltage: 2.4V-5.5V

The module can set the output mode, the key output mode, the maximum output time and fast / low power selection

Specifications:

Board Color: Blue

Board Size: Approx 35*29mm

On board TTP224 capacitive touch sensor IC 4 keys

4 board-level status indicator

Working voltage: 2.4V-5.5V

The module can set the output mode, the key output mode, the maximum Output time and fast / low power selection

PCB board size: 35 (mm) x29 (mm)

Package Includes:

1* TTP224 4 Channel Digital Touch Sensor Module
