

OKY0276

Product Name: Silicon Power NPN Transistors

Product Module: OKY0276

Product Description:

1. Dimension: 3.2cm x 2.4cm x 1.8cm (approx).
2. The sensitivity and holding time can be adjusted.
3. Working Voltage Range: DC 4.5V- 20V.
4. Current drain: <60uA.
5. Voltage Output: High/Low level signal: 3.3V TTL output.
6. Detection distance: 3--7M (can be adjusted).
7. Detection range: <140° .
8. Work temperature: -20-+80° C.
