

OKY1000

Product Name: 38KHz Infrared IR Receiver Module Wireless Infrared Remote Control Kit

Product Module: OKY1000

Products Description:

infrared wireless remote control kit consists of ultra-thin infrared remote control and 38KHz infrared receiver module. This mini slim infrared remote control with 20 function keys. Its transmit distances up to 8 meters. Ideal for handling a variety of equipment indoors.

IR receiver module can receive standard 38KHz modulation remote control signal. You can decode the remote control signal through Ardu programming. You can design a variety of remote control robots and interactive works.

Product Features:

Model Number	OKY1000
Name	38KHz Infrared IR Receiver Module Wireless Infrared Remote Control Kit
Transmission distance	up to 8m(depending on the surrounding environment- sensitivity of receiver etc)
Effective angle	60°
Effective life	20000times
Static current	3uA - 5uA
Dynamic current	3mA - 5mA
Battery capacity	160mAh
Battery	CR2025 Button batteries (not Included)
Sticking Material	0.125mmPET
Remote controller size	8.5 x 4 x 0.65cm(L x W x H)
Weight	19g for the kit
Compatible With	Remote Control Intelligent Car , starter Kit for Ardu

Package Included

- 3×PCS 1x Mini Slim 38KHz infrared remote control
- 1x IR sensor module
- 1x Female to Female jumper wire
