

## OKY3277-1

**Product Name:**3-50cm E18-D50NK Smart Car photoelectric Sensor  
IR Infrared Obstacle Avoidance Sensor

**Product Module:** OKY3277-1

### Product Description:

1. The output current DC / SCR / Relay Control output: 100mA/5V powered.
2. The DC current consumption <25mA.
3. Response time <2ms.
4. Point angle: 15 ° , effective distance 3-50CM adjustable.
5. Detection of objects: transparent or opaque body.
6. The working environment temperature: -25 ° C ~ 55 ° C.
7. The standard sensing object: sunlight 10000LX The following incandescent 3000LX.
8. Case Material: Plastic.
