OKY3336-2

Product Name: MQ-9 Combustible Gas Carbon Monoxide CO Gas Sensor MQ9 Gas Detector Module

Product Module： OKY3336-2

Product Description:

1. For home or factory gas leakage monitoring devices, suitable for carbon monoxide and other combustible gases and monitoring devices.

2. High-quality, dual-panel design, with power indicator and TTL signal output instructions.

3. DO switching signal(TTL) output and AO analog signal output.

4. TTL output valid signal is low. (When the output low signal light is on, it can be directly connected microcontroller or relay module).

5. Analog output voltage:the higher the concentration,the higher the voltage.

6. Have better sensitivity to carbon monoxide detector.

7. Four screw holes,easy positioning.

8. Product Dimensions: 32 (L) * 20 (W) * 22 (H).

9. Long life and stability.

10. Quick response and resume.

Package Included

Packing List	Qty
MQ9 Gas Detector Module	1
