

## OKY3365

**Product Name:**New Mini NRF24L01 SMD 1.27MM Wireless Transceiver RF Module

**Product Module:** OKY3365

### Product Description:

- 1.NRF24L01 + wireless module.
- 2.2Mbit / s 1Mbit / s 250Kbit / s transfer rate options.
- 3.MultiCeiver hardware to provide the 6 receiver functions at the same time.
- 4.Only need an external inductance when match antenna.
- 5.Improved ShockBurst and serial interface can be easily connected with a variety of low-cost MCU.
- 6.20 pin 4x4mm QFN leadless package very few external components.
- 7.The 2Mbit / s rate when the peak current 12.5mA received.
- 8.The 2Mbit / s rate @ 0dBm output current of 11mA peak.
- 9.2Mbit / s rate of only a small average current.
- 10.400nA Power-down mode, power consumption.
- 11.Power consumption of 32uA in standby mode.
- 12.130us fast switching and wake-up time.
