OKY3433-1

Product Name: Hall Sensor Magnetic Sensor Standard Linear Module For Arduino

Product Module： OKY3433-1

Product Description:

1.Linear Hall magnetic module and number 13 comes with LED build a simple circuit to produce magnetic field warning lamp. Use digital 13 interface comes with the LED. The linear Hall magnetic module connected digital 3 interfaces. When the linear Hall magnetic module senses detected the key signal. LED lights on, otherwise off.

Package Included
