

## OKY3433-2

**Product Name:**Hall Effect Sensor Magnetic Sensor Module

**Product Module:** OKY3433-2

### **Product Description:**

- 1.Input voltage: 5V.
- 2.PCB board material: flame retardant epoxy resin.
- 3.PCB board size: 19\*15.5.
- 4.Application: For Arduino DIY project.
- 5.Analog magnetic sensor module and a digital interface.
- 6.Built-in 13 LED build a simple circuit to produce a magnetic flash.
- 7.Black PCB board, made of flame retardant epoxy resin material.

### **Package Included**
