

## OKY3441

**Product Name:** Soil Moisture Sensor Module Hygrometer Detection Module 38mm  
Detection Depth

**Product Module:** OKY3441

### Product Description:

Fork-like design, make it easy to insert into the soil  
Output voltage boosts along with the soil moisture level increases

Detection depth: 38mm

Power: 2.0V ~ 5.0V

Dimension: 20.0mm \* 51.0mm

Mounting holes size: 2.0mm

### Products Features:

Applications:

Auto watering system

Flowerpot soil moisture detection

Auto pouring system

How to Use:

In the case of working with a MCU:

VCC ↔ 2.0V ~ 5.0V

GND ↔ power supply ground

AOUT ↔ MCU.IO (analog output) .

### Package Included

1×PCS Soil Moisture Sensor
