

OKY3451

Product Name:TCS3200 TCS230D Color Sensor Color Detection Sensor

Product Module: OKY3451

Description:

Brand new and high quality.

Input Voltage: 3V ~ 5V.

Best Detection Range: 10mm.

High-resolution conversion of light intensity to frequency.

Chip pins all has drawn for standard 100.

Put the needle (2.54 mm).

Mil-convenient for bitmap board.

Programmable color and full-scale output frequency.

Communicate directly with a microcontroller.

Low-profile surface mount package.

PCB Size (L x W): Appro 1.2 x 0.95 inch.

Weight: 4g

Package Included

1PCS x TCS3200 TCS230D Color Sensor Color Detection Sensor
