

## OKY3455

**Product Name:Humidity sensor HR202 Humidity Controller Sensor Module**

**Product Module:** OKY3455

### **Product Description:**

- 1.Size is 32mm x 11mm x 20mm.
- 2.Main chip: LM393, moisture-sensing probe.
- 3.Working voltage: DC 3-5V.
- 4.With the output instruction, active-low, the output light.
5. Single output, response time 10s.
- 6.The humidity output valid signal is low, sensitivity adjustable.
- 7.Widely used to detect humidity, rain and other occasions, the output TTL level signals.
- 8.with mounting holes for easy permanent installation.
- 9.the output switch circuit board can be connected directly to microcontroller IO port.

### **Package Included**

Packing List	Qty
Humidity sensor HR202 Humidity Controller Sensor Module	1
