

OKY3463-1

Product Name:LM317 Power Voltage Regulator Step Down Power Module + LED Voltmeter

Product Module: OKY3463-1

Product Description:

- 1.Input: DC 0V ~ 30V / AC 0V ~ 22V.
- 2.Output: DC 1.25V ~ 28V.
- 3.Output current: 2A Max.
- 4.The minimum differential between input and output: 3V, input must be higher than the output voltage above 3V to be regulated. Buck, not boost, when input 5V output 1.25V ~ 2V, not 6V.
- 5.Circuit board size: 69 x 50 x 27mm (L x W x H).
