

OKY3463-3

Product Name:6V 12V 24V 28V 3A 80W DC Motor Speed
Controller Voltage Regulator

Product Module: OKY3463-3

Product Description:

- 1.DC Motor Speed Regulator controls the speed of a DC motor by adjusting Pulse-Width-Modulated (PWM).
- 2.The input power range is DC6-28V.
- 3.Duty Cycle adjustable range is 5%-100%.
- 4.Control the forward or reverse direction and the stop of DC motor by switch.
- 5.Potentiometer with switch function.
- 6.The switch cable length 15cm.
- 7.Item size: 32mm*50mm*15mm.
