

OKY3464

Product Name:DC 5V-12V LM386 Mini Micro Audio Amplifier Module

Product Module: OKY3464

Product Description:

- 1.Low static power consumption, the quiescent current of approximately 2MA, ideal for battery-powered.
- 2.Wide operating voltage range: 4-12V.
- 3.Very few external components.
- 4.The board default gain of 200.
- 5.Low distortion.
- 6.On-board volume control potentiometer clockwise to increase the volume.
- 7.With power indicator light.
- 8.Board size: 41*13 mm.
