

OKY3529

Product Name:Microcontroller MAX7219 16 In 1 Display LED Dot Matrix Module

Product Module: OKY3529

Product Description:

1. A single module can drive a 8x8 dot matrix common cathode.
2. Module Operating voltage: 5V.
3. Module Size: Length 12.8 cm X 12.8 cm wide and 1.3 cm high X.
4. With 64 fixing screw holes, diameter 3mm.
5. Module with input and output interfaces, support for cascading multiple modules.
