

OKY4024

Product Name:84x48 LCD Display Module PCB 5110 LCD For Arduino

Product Module: OKY4024

Product Description:

- 1.Application: 1.6" LCD display, perfect for DIY project.
- 2.Dimensions: 1.77 in x 1.69 in x 0.24 in (4.5 cm x 4.3 cm x 0.6 cm).
- 3.Backplane have positioning holes in the four corners, up and down two rows of wiring ports.
- 4.RST - Reset.
- 5.CE - Chip Select.
- 6.DC - data / instruction selection.
- 7.DIN - serial data line.
- 8.CLK - serial clock line.
- 9.VCC - power input (3.3v and 5v can, after experimental verification, no problem).
- 10.BL - backlight control.
- 11.GND - Ground.
- 12.Interface for serial SPI interface.
