

OKY0251

Product Name: USB Lithium Battery Charger for 14500 16340 17500 18350 18500 18650

Product Module: OKY0251

Description:

- 100% brand new
- XTAR MC2 charger is a charger that exceeds your imagination. With quite light weight and ultra-compact size, it's been designed to be very solid and pragmatic. MC2 inherits all XTAR chargers' great features and derives its own incomparable characteristics
- Charge two batteries simultaneously and independently.
- Intelligently identify input power and automatically adjust suitable charge current(0.25A/1.0A).
- Applying to Micro **USB interface** for power supplying makes charging flexible and convenient.
- **LED indicator** do real-time display of battery state.
- Three-stage charge algorithm(TC-CC-CV).
- Charge two 14500 14650 16340 17500 17670 18350 18500 18650 18700 3.6V/3.7V Li-ion Batteries
- **Over heat protection. When operate in high temperature, MC2 will automatically lower charge current to prevent over-heating burns.**
- **Built-in reverse-polarity and short-circuit protection circuit.**
- 0V activation and soft-start function.
- MC2 has under voltage lockout and self-start function.
- Automatically stop when charge complete.
- ABS durable material.

Specification

- Brand: XTAR
- Charging qualifications and structures
- Input Power: 5.0V DC/1000mA、
- CC Current: 500mA or 250mA
- Cut-Off Voltage: 4.20V
- Operation Temperature: 0-40 °C
- Weight: 95g
- Color: Black

Package included

- 1 x Smart Charger

- 1 x USB cable
